Horse Breed	Primary Horse Activity	Prior Horse Condition	Stance Product Used	
Leopard Appaloosa	Pleasure Riding	Fizzy Hot and Excited	CoolStance Copra	

My horse an 8 year old Leopard Appaloosa has been very uptight and fretful. I tried adjusting his feed to cooler grass hay but he still was totally dangerous, unpredictable. After I heard about CoolStance I was hopeful it might help calm my horse. After a couple of weeks he has transformed into a different animal. Everyone at the facility I board him at has seen the transformation and can't believe it. Those with the same problem I had are convinced! They will try this feed out. The only problem I have is that he won't eat it alone. I have to put sugar or syrup on it. He eats it and still has the same calming effect. Thanks! My rides are much more enjoyable now!
